As a community-centric interactive media artist from Berlin, Germany, I am now seeking a new, supportive and trustful work environment. In the role of *Creative Technologist* at BRILLIANT in SF, I am eager to contribute my skills in designing empowering and solid user experiences around community needs, to work closely with experts and designers on impactful learning paths, and to continue tackling challenges beyond my comfort zone in a new place.

Work

At *Moving Across Thresholds*, a series of labs, 2022:

MovingAcrossThresholds.com

- Created a community website in Elm with a Firestore backend
- Implemented a Social Media and Newsletter campaign, doubling our reach

With the *Shell* media activism community, since 2020:

ShellCongress.com

- Curated the international Shell Congress with the accompanying website
- Designed a virtual ShellScape for community workshops

At *projectTogether*, a non-profit startup with 30 employees, 2020-21:

ProjectTogether.org

- Elm codebase refactoring and improving the code documentation
- Built a custom UI library in cooperation with the external designers
- Introduced accessibility and barrier reduction best practices

Freelance interactive media designer, since 2007:

flupsi.com/multimedia

- Frontend and UX consulting with collectives and non-profits
- Interactive animations for artists
- Full stack sites in Flash/Haxe, php, js and ts, Astro

Activism & Curation

- Curating the the *Shell Congress* for deviant bodies; mentoring art-activists
- Facilitating workshops and research projects around embodied cyberspace
- Supporting non-native speakers with grantwriting, paperwork and translation
- Independent filmmaking as DP, producer and color grader
